

### 38 Panel Allergy Test

Key Foods & Inhalant  
Allergies tested

Professional Lab IgE Antibody  
Blood Test

**Allergy Test** analyses your blood sample against **38 of the most common allergens** including milk, egg, meat, inhalants, pets and a variety of nuts.

This test is designed for digestible allergens which may be causing you symptoms like: **sneezing, coughing, itchy mouth/throat, watering eyes, wheezing or chest tightness, rashes, hives or swelling, nausea, vomiting or diarrhoea** and in extreme cases: **anaphylaxis**.

### Tested Allergies (*IgE*) for:

**Homoeopathic  
Health Clinic**

**Diagnostic Clinic**  
ALLERGY, HEALTH &  
LIFESTYLE SCREENING

## How it works!

**Initial Appointment** – Test includes 15 minutes appointment at our clinic for initial consultation, advice & we then take a finger prick blood sample.

We send the sample/s to certified labs for analysis/reaction of your IgE antibodies against 38 allergens to generate a report.

The results in pdf file will be sent to you within 5 to 7 working days by email or WhatsApp for you to download. After which we include 15 minutes phone discussion about your report.

**Cost: Essential 38 Allergens Blood Test = £100**
